MEET STACK'S STAFF

STACK'S is only as efficient as the people who serve it. In this respect STACK'S has no equal. Perhaps the finest numismatic staff in the country is at your service. Men with extensive backgrounds and broad knowledge in every phase of numismatics stand ready to offer their expert, specialized help with any of your problems or questions. STACK'S, in fact, has been the training school for some of the most renowned numismatic experts . . . many of whom have found places in America's leading museums. A large, well trained secretarial staff; working with the most modern office equipment available, is ready at all times to handle the day to day detail of a large and complex organization smoothly and efficiently.

STACK'S proudly boasts one of the largest and most complete privately owned numismatic libraries in existence today . . . an invaluable aid in the proper cataloguing and appraisals of coins and collections. STACK'S is located in New York, the coin capital of the world, and maintains a large, richly appointed shop on 57th Street, the art and cultural center of America. There is hardly a coin known to collectors which STACK'S has not sold at one time or another in their history.

This enviable reputation and successful sales history has not been achieved without a concerted effort. In order to maintain interest in their sales, and to keep collectors apprised of their progress, STACK'S maintains a mailing list of over 30,000 active coin collectors who regularly receive notices, catalogues, announcements and the like, pertaining to forthcoming sales and other events.

Can any one-man organization offer such a wealth of facilities?

It is no wonder that STACK'S is the leading numismatic service organization in the nation, if not the world. It is no wonder that the largest collections in the world find their way to our doors . . . or the youngest collectors come in for their first coins. No wonder that collectors are turning more and more to STACK'S for help with their problems . . . advice with their collections . . . experienced counsel on the profitable development of their collections.

THE NATIONAL COIN ALBUM

Visibility

Protection

Convenience

Your selection of the National Coin Albums will lead to a greater enjoyment of your collection. Designed in booklike form, the compactness and ready reference they afford as well as complete protection, have made them leaders for over two decades.

Two convenient sizes are available to suit the varied needs of collectors: Large pages measure 7½x14 inches and the small pages are 5½x8 inches. Binders are available for both sizes. All pages are made of heavy chipboard and faced with a tough cover stock in a pleasing tan color. The edges are bound with brown cloth tape. Both obverse and reverse of coins may be seen through sections of transparent acetate which cover each row of openings. The sturdy construction of these pages and binders will withstand years of use.

SETS OF SMALL SIZE PRINTED PAGES

On all the following sets the dates or titles are printed below each opening. Sets are sold only in sets as listed. You may, however, order any of the last three pages of sets starred * in order to bring your set up to date. All pages are punched to fit the small size binder. Please order by number.

GOLD COINS OF THE WORLD

Complete from 600 A.D. to 1958

An illustrated standard catalogue with valuations

by Robert Friedberg

PRICE: \$15.00

A single large size **library volume** (8½"x11"), **about 400 pages, over 2500 coin illustrations**, and handsomely printed and bound with attractive jacket.

Never before in the annals of numismatics has a book of this magnitude and importance been attempted or published.

THE SCOPE OF THIS BOOK: A complete catalogue of all the gold coins struck in the world up to 1958 and beginning with the first distinctive national or local coinage of each coin-issuing locality that struck gold coins following the age of antiquity and nomadic invasion. In Europe the first such issues are the Italian Beneventum coins of about 600 A.D.; in the Orient, the Axum coins of Ethiopia of about 300 A.D.; in America, the Spanish colonial coins of about 1620. **Naturally, all types of U.S. coins have been shown.**

In order to attain the maximum accuracy needed for so important a work as this, a group of contributors has assisted the author in various ways. These contributors, both American and European are Numismatists of world-wide renown and are acknowledged experts in their fields. No other coin book has ever enjoyed the benefit or prestige of such collaboration.

All coins have been accurately described and collectors valuations given. The more than 2500 illustrations of these coins have been embodied within the text, rather than keeping them as a separate section of plates at the end of the book.

Five years of preparation have gone into this work, and veritable multitudes of numismatic reference works have been consulted in order to gather the necessary information to make this volume both accurate and complete. **It would require the purchase of books amounting to well over \$1000.00 to duplicate the numismatic information in this one volume.** As an example, the standard work on Danish coins alone sells for about \$30.00; on Spanish coins, it is about \$200.00; on Polish coins, it is about \$25.00, etc.

No one with the slightest interest in coin collecting, or for that matter in history, geography, economics, politics, or the ever popular subject of gold in general, can afford to be without this valuable and important work.

The indexes alone are worth the price of \$15.00. One of them, several pages long, shows the principal gold coins of the world, their weight, their purity and their original exchange value in terms of U.S. gold dollars—information long needed by the world and never before available.

The price of this remarkable book is \$15.00. Order your copy now to insure immediate delivery upon publication.

Just check the box on the order sheet and be certain to be among the first to own this important book!
